## Compliance

Channel Partner Tier levels are based upon annual performance. Reviews will be held annually in January. However, upon request, Forcepoint will review and determine whether Channel Partners achieved the threshold requirements for promotion to the next level for the remainder of the calendar year. During the year, Channel Partners may be promoted but will not be demoted; demotions will only take place on an annual basis. Each Channel Partner Tier level has financial and operational threshold requirements that must be met. As further described in this Forcepoint Partner Program Guide, the requirements include ACV bookings and certification requirements defined by the applicable Tier.

Channel Partners who have not purchased or resold Forcepoint solutions within two calendar years will be removed from the Forcepoint Partner Program during annual compliance. Additionally, Channel Partners who are not in good standing or are not complying with applicable laws and regulations may be removed from the Program at Forcepoint's discretion.

Forcepoint reserves the right to modify the Forcepoint Partner Program requirements and benefits at any time. The current version of the Forcepoint Partner Program Guide can be found on the Forcepoint Hub.
